Subject: Intracoronary Brachytherapy for In-Stent Restenosis*

Updated: February 24, 2009

Department(s): Utilization Management

Policy: Coronary artery brachytherapy for in-stent restenosis is reimbursable under Plans administered by QualCare, Inc.

Objective: To ensure proper and consistent reimbursement and to record criteria for a specific therapeutic intervention.

Procedure:

A. Coronary artery brachytherapy (CPT 77785, 92974) will be reimbursed for in-stent restenosis (ICD-9 996.03, 996.72) in either a native coronary artery or a vein-grafted coronary artery.

B. Coronary artery brachytherapy is NOT reimbursable for primary prevention of restenosis during initial stent placement (99280, 99281).
