Subject: Keloid Treatment and Scar Revision*

Effective Date: July 31, 2007

Department(s): Utilization Management

Policy: The treatment of keloids and the revision of scars are reimbursable under Plans administered by QualCare, Inc., if the conditions in this policy are met.

Objective: To assure proper and consistent reimbursement and to specify circumstances under which treatment of keloids and revision of scars are covered.

Procedure:

A. Treatment of keloids (ICD-9 701.4) and revision of scars (ICD-9 709.2) are reimbursable if they cause symptoms including but not limited to the following:

1. Pain for at least one month
2. Restriction of range of motion
3. Irritation from clothing
4. Functional impairment

B. Treatment of keloids or revision of scars that do not cause symptoms is considered cosmetic and is not reimbursable, but may be considered if allowed by the specific summary plan document.
